

Basic L^AT_EX Document

Traap

September 17, 2023

Abstract

tlc-article exposes a command named `tlcTitlePageAndTableOfContents` to orchestrate document layout. This L^AT_EX document demonstrates layout design tlc-article uses in concert with `facncyhdr` to layout the first page with a document title, document author, document date, and document abstract with the headers and footers being empty. Page two begins a consistent design the document header and document footer as well as the table of contents. Page three begins document content.

Contents

1	Intruduction	3
1.1	purpose	3
1.1.1	audience	3
2	Body	3
3	Conclusion	3
4	tlc-article Debug	4
4.1	tlc-article default files	4
4.2	tlc-article file hooks	4
4.3	tlc-article header and footer hooks	4

1 Intruduction

A L^AT_EX [Intruduction](#) section using document class tlc-article.

1.1 purpose

A L^AT_EX [purpose](#) section using document class tlc-article.

1.1.1 audience

A L^AT_EX [audience](#) section using document class tlc-article.

2 Body

A L^AT_EX [Body](#) section using document class tlc-article.

3 Conclusion

A L^AT_EX [Conclusion](#) section using document class tlc-article.

4 tlc-article Debug

4.1 tlc-article default files

tlc@location: data

tlc@additionalLayout: data/additional-layout.tex

tlc@headerFooter: data/header-footer.tex

tlc@versionFile: data/version.csv

tlc@logoFile: data/logo.png

tlc@versionFile: data/version.csv

4.2 tlc-article file hooks

tlc@additionalLayout: NOT DEFINED

tlc@headerFooter: NOT DEFINED

tlc@logoFile: NOT DEFINED

tlc@versionFile: DEFINED

4.3 tlc-article header and footer hooks

tlc@version: v0.0.0

tlc@date: September 17, 2023

tlc@status: DRAFT

tlc@institution: Traap
